THE LATEST AXON EVIDENCE RELEASE

New for the August release - Automated people detection in Axon Evidence for faster evidence review, 15 new transcription languages, including bilingual models, available for Auto-Transcribe, new VR modules for training on mental health issues and more.

The August release is scheduled for August 28, 2024.

See the **Full Release Notes** PDF for details, including a list of resolved issues. The Axon Evidence Maintenance Schedule lists the updated schedule times for your region. We don't anticipate any downtime.

The August Axon release is coming soon. Below is a high-level look at the changes, along with a link to the complete release notes with more details.

Beta Features: As part of our ongoing innovation efforts, some features will now be tagged with a "Beta" label. These features are fully functional and designed to enhance your experience, while still being refined and improved based on user feedback.

Take me to the release notes
